

YN18W

18W

YN18W

Product Overview

Specifications

| Parameter          | Specification                   |
|--------------------|---------------------------------|
| Model              | YN18W                           |
| Input Voltage      | AC100-240V                      |
| Output Voltage     | 5-24VDC (1.0V)                  |
| Output Current     | 0.01-3.2A                       |
| Output Power       | 18W                             |
| Efficiency         | 85% (Typical)                   |
| DC Load Regulation | ±0.5%                           |
| Line Regulation    | ±0.1% (100V-240V)               |
| Certifications     | UL, CE, FCC, KC, PSE, SAA, RoHS |

Product Features

- Wide Input Voltage: AC100-240V
- Adjustable Output Voltage: 5-24VDC, 0.01-3.2A
- High Efficiency: 85% (Typical)
- DC Load Regulation: ±0.5%
- Output Power: 18W
- Certifications: UL, CE, FCC, KC, PSE, SAA, RoHS

Applications

- Industrial Automation
- Medical Equipment
- LED Lighting
- PC Peripherals
- IoT Devices
