

YN12USB 12W USB

YN12USB

Product Overview

Specifications

Parameter	Specification
Input Voltage	AC100-240V 50/60Hz
Output Voltage	5-24VDC (Adjustable)
Output Current	0.01-2.2A
Output Power	12W
Interface	Type-C / Micro USB / DC (5.5mm)
Dimensions	45mm x 25mm x 25mm
Certification	UL, CE, FCC, KC, PSE, SAA
Material	ABS Plastic, Fire Retardant, RoHS Compliant

Product Features

- Adjustable output voltage: 5-24VDC, output current: 0.01-2.2A, output power: 12W.
- Wide input voltage range: 100-240VAC, 50/60Hz.
- Multiple interface options: Type-C, Micro USB, DC (5.5mm).
- Compact and portable design.
- High efficiency and low heat dissipation.
- Compliance with international safety standards: UL, CE, FCC, KC, PSE, SAA.

Applications

- Power supply for various electronic devices, including smartphones, tablets, and laptops.
- Power supply for industrial equipment, including sensors, actuators, and PLCs.
- Power supply for LED lighting, including strip lights and spotlights.
- Power supply for IoT devices, including smart home appliances and industrial sensors.
