

YN160W 160W

Product Overview

Specifications

Parameter	Specification
Input	AC 100-240V 2.5A
Output Voltage	9-58VDC
Output Current	0.01-12.5A
Power	160W
Efficiency	88%
Protection	Over-voltage protection, Over-current protection, LED, Over-temperature protection
Certification	UL, CE, FCC, KC, PSE, SAA, RoHS

Product Features

- Output Voltage: 9-58VDC
- Output Current: 12.5A Power: 160W
- Efficiency: 88%
- Protection: Over-voltage protection, Over-current protection, LED, Over-temperature protection
- Certification: UL, CE, FCC, KC, PSE, SAA, RoHS

Applications

- Industrial, Commercial, Residential, LED, IoT
- PD, PD3.0/QC4+/PPS
- LED
- IoT
