

YN65W1 65W

29V/2A

40

YN65W1

Product Overview

Specifications

| Parameter                      | Specification                                       |
|--------------------------------|-----------------------------------------------------|
| Input Voltage / Output Voltage | 29V2A / 29V1A                                       |
| Power                          | 65W                                                 |
| Dimensions                     | 63×63×28 mm.                                        |
| Operating Temperature          | 0~40°C                                              |
| Efficiency                     | 85% / 88%                                           |
| Output Voltage Regulation      | DC Load Regulation                                  |
| Certifications                 | CB, UL, FCC, UKCA, SAA, RCM, PSE, KC, KCC, CQC, BIS |

Product Features

- Input Voltage : AC100-240V  
Output Voltage / Current : 29V2A / 29V1A
- Power : 65W
- Operating Temperature : 0~40°C
- all-in-one
- Dimensions : 63×63×28 mm.
- Efficiency : 85% / 88%
- Output Voltage Regulation : 11
- CB, UL, FCC
- Certifications : CB, UL, FCC, UKCA, SAA, RCM, PSE, KC, KCC, CQC, BIS

Applications

- Power Adapter
- PD3.0/QC4+/PPS
- IEC EN60601
- LED
- LED
- 9-58VDC
- IoT
- IoT
- UL/CE/FCC

Certifications

|     |     |     |    |     |     |     |      |
|-----|-----|-----|----|-----|-----|-----|------|
| CB  | 3C  | CQC | UL | FCC | CE  | GS  | UKCA |
| SAA | RCM | PSE | KC | KCC | NOM | BIS | BSMI |

|                           |                        |                                  |                                   |                          |
